AUTOMOBILE HACKS TO BE IN SERVICE IN HONOLULU WITHIN TEN WEEKS

Twenty-Seven Handsome Vehicles are Now Being Set Up in Temporary Quarters at Independence Park.

SETTING UP THE AUTOMOBILES

THE automobiles are in Honolulu. Within ten weeks he who cares may ride in the new-fangled horseless carriages, and the Pain mule and horse hackman must look to their laurels and fares.

There are twenty-seven autos in the dance hall at Independence Park on King street where they are being set up and where they will stay temporarily. A score of them are hacks for the

service which the company will start here and the others are for lighter carriages for sale or for hire at livery. The hacks are models of beauty, comfort and convenience and will be a pleasant change from the kind in use now.

They are very large, weighing about 2000 pounds, battery and all, and are finished in handsome style. All these automobiles are run by electricity and the company is now putting up on

King street near Punchbowl street the power and store house in which they will do business in two months or so.

The building already shows an imposing concrete front and is to be fire-proof and substantial in the extreme. The great boilers, dynamos and electrical machinery are arriving from the Mainland and being set up as fast as possible. L. T. Grant, the manager of the company, said yesterday that they were getting everything ready for the

opening of their business but would not put the autos on the street until thoroughly equipped.

"We will have twenty hacks," said Mr. Grant, "which will be kept in our establishment for hire the same as the hacks now on the stands. Our rates will be the same as for the horse hacks by the trip or the hour but we will coupons at a discount of ten per cent and all persons paying cash to the drivers will receive a ten per cent discount slip which can be cashed with us. Our public hacks will not stand on the streets but will be in the storehouse ready for call. The drivers will be trained perfectly by the expert we have brought from Chicago and will be selected after experiment for their coolness, sobriety, courtesy and good appearance. They will all be uniformed and will be paid \$75 a month. Our hacks will be ready day and night always and our other vehicles, such as drags, buggies, etc., may be hired by the hour or day, with or without a driver.

"Besides we have for sale doctor's gigs, buggies and other carriages. Those who buy vehicles may keep them at our establishment at the rate of \$30 a month which will include all the electricity wanted, the changing of batteries as often as required, the keeping in repair and cleaning of the vehicle and the delivering and sending for them daily. Our batteries which are in the vehicles will carry them forty miles and the change of battery does not take more than five minutes. Already we have sold a number of buggies and expect to sell many more when the people become familiar with them."

MARCHED UNDER THE RED FLAG

Social-Democratic Party's Parade in the New York Streets.

NEW YORK, Nov. 3.—One of the most picturesque demonstrations of the present campaign was a social Democratic party parade last night in which over 5,000 men and women marched preliminary to a meeting in Madison Square. Men and women, marching side by side, alternately sang the Marseillaise and chanted:

"Vote for Freedom

"Vote for Debs."

Picturesque floats and unique arrangements made the parade spectacular in effect. The red flag of socialism predominated and every marcher wore a red ribbon badge.

As the parade reached the square each one of the bands began to play the Marseillaise.

In the ranks which numbered several trades organizations, marched many women who cheered for the candidates of the party. The one float which attracted attention was "Liberty Enlightening the World." On this was a young woman posing as Liberty with children dressed as Indians, Chinese and other nationalities. Another float was that of the Dramatic Society of Socialists. This represented a mining scene. Painted scenery showed the entrance to a mining shaft and miners with lighted lamps on their caps were congregated on the float. The float which seemed to satisfy the paraders best was that which represented a stockade in which were working men covering before the bayonets of soldiers. This was supposed to represent the Coeur d'Alene mining troubles.

Numerous banners and transparencies were carried. Some of the sentiments were "Labor is the Producer of all Wealth—Idle Capitalists Own It." "Prosperity! Have you any? Give us some."

Those who spoke at the meeting were Max S. Hayes and H. P. Giger of Cleveland, Ohio; J. Mahlon Barnes of Philadelphia and Benjamin Hanford, the candidate for Governor.

CHINESE IN BALED HAY.

NEW YORK, Nov. 2.—New York officials today got a taste of the methods used by the wily Chinese to enter the United States over the northern boundary. Night Watchman Murphy, who patrols the New York Central yards at Rensselaer, just across the Hudson river saw a head pop out from a small opening in a car of baled hay. Murphy turned his lantern on the head and saw that it belonged to a half-starved Chinese. "Bling water, heap quick," gasped the yellow refugee. Murphy brought a quart, which the half-starved heathen quickly gulped down. "Bling more, plenty more Chinamen inside hay," said the man with the queue. Murphy brought a bucket of water and soon had six Chinese lined up in the yard. He turned them over to the Federal authorities. The men said that they had been shipped in the hay by an agent in Montreal. The Federal authorities are making an investigation.
